

Rockwell Part

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and components along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for delivery, quality, service and technology. They believe in working within an atmosphere that supports the highest integrity with empowered teamwork, combined with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and offering a safe surroundings for their staff to work in. Also, they have implemented a lot of programs within the corporation in order to help articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whichever questions or comments, because they are happy to promote and share this policy with a greater understanding of their efforts. They are extremely committed to preserving and improving the environment. AxleTech has an EHS program which not just protects the natural environment but which also actively protects their neighbors and staff too.

AxleTech specializes in the manufacture and designing of planetary axles meant for both military and commercial applications, which could consist of anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider too. AxleTech particularly designs axles to meet certain application demands. They have over one thousand different axle specs within their current offering. With more than one hundred years of history and skill, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in many military and commercial applications. They offer complete axle assemblies used for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have added details that could be seen in the "ISAS" product collection.
