

Concrete Hoppers

Concrete Hopper - This accessory is a self-dumping hopper which automatically triggers to unload when bumper release contacts the side of a dumpster. Once unloading is finished, the hopper returns to an upright and locked position. This piece of machinery is even obtainable together with a cable that enables operation from the seat of the lift truck in order to have the choice of manually unloading the hopper. There is a locking chain provided so as to lock the hopper to the fork truck. This product is made with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper even has a blue powder coat finish to be able to maintain durability.
